

MEGHNAD LABORATORY

Nagdeo Towers, Second Floor,
Nashik Road, Bhosari, Pune - 411 039.

Dr. Bhagyashree Padsalgikar

MBBS., DPB

CONSULTING PATHOLOGIST

NAME : MR GAJANAN SHIRGOLE

AGE & SEX : 38Years / Male

REFERRED BY D DR RAHUL DESHMUKH SIR

Reg. ID :

REGISTERED ON :01/03/2022 10:07AM

REPORTED ON :01/03/2022 10:13AM

BIOCHEMISTRY

ADA REPORT

Sample Type FLUID

ADA-Adenosine Deaminase,

: 8.89

U/L

Negative : < 11

CSF

Suspect:11-12.35

Positive:> 12.35

Method & Instrument

: Enzyamatic / MICROLAB 200

ADA is an enzyme catalyzing the deamination reaction from adenosine to inosine. The enzyme is widely distributed in human tissues especially high in T lymphocytes. Increased ADA activity is observed in patients with tuberculous effusions.

The levels of ADA increase in TB because of the stimulation of T cells by mycobacterial antigens. ADA is an enzyme catalyzing the deamination reaction from adenosine to inosine. The enzyme is widely distributed in human tissues especially high in T lymphocytes. Increased ADA activity is observed in patients with tuberculous effusions.
